“

The UAE is working to develop its rich resources and expertise in the international energy markets and raise its leading role as a world centre for renewable energy research and development.

”

**HH Sheikh Khalifa bin Zayed Al Nahyan**

President of the UAE

We recognise that preserving our energy resources will be one of the greatest challenges in our drive towards sustainable development. This, however, will not materialise unless the different facets of our society adopt energy conservation principles in their core values. The future generations will be the chief beneficiary of our achievements and the best judge of what we accomplish in this field.

**HH Sheikh Mohammed bin Rashid Al Maktoum**

Vice President and Prime Minister of the UAE and Ruler of Dubai

## MESSAGE FROM MD & CEO OF DEWA

Under the directives of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, and the patronage of His Highness Sheikh Ahmed bin Saeed Al Maktoum, Chairman of the Dubai Supreme Council of Energy, DEWA organises the Water, Energy, Technology, and Environment Exhibition (WETEX) and Dubai Solar Show. This supports the vision of the wise leadership to promote the sustainable development of the UAE and consolidate Dubai's position as a global hub for a green economy.

The 24th exhibition, which DEWA organises from 27-29 September 2022 at Dubai World Trade Centre, is an exceptional opportunity for exhibitors and visitors from all over the world. This follows on from WETEX being the first exhibition to be held at Dubai Exhibition Centre at Expo 2020 Dubai and one of the first major events in the world since the start of the COVID-19 pandemic. The UAE, thanks to the vision of the wise leadership, has become one of the most successful countries in rebounding from the pandemic.

Over 23 years, WETEX has become one of the largest and most important specialised exhibitions and an annual event awaited by organisations from the energy, water, environment, oil, gas, green development and related sectors from the region and the world. They can present products and solutions, as well as discuss the best practices and the latest technologies and innovations. The exhibition is an opportunity to reach thousands of exhibitors to make deals, build partnerships, and view the latest technologies and innovations in the energy, water, renewable energy, and environment sectors, as well as learn about market needs, especially in view of the increased adoption of renewable energy technologies in the UAE and the region. Visitors can take part in the busy schedule of specialised seminars and workshops by experts and professionals in the green economy, smart cities, innovation, and sustainable development.

I look forward to welcoming you to WETEX and Dubai Solar Show 2022 and take this opportunity to thank our partners, sponsors, and exhibitors. I wish you a very successful participation in this exceptional exhibition.

**HE Saeed Mohammed Al Tayer**

MD & CEO of DEWA and Founder and Chairman of WETEX

## THE EIGHT PRINCIPLES OF DUBAI

HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, has announced the eight principles of governance in Dubai, recommending that all those who assume responsibility in Dubai to abide by them at all times, whatever the circumstances.

His Highness expressed his thanks to everyone who congratulated him on the 50th anniversary of his ascendency to his role in the service of the homeland.

- 1. The Union is the Foundation:** Dubai is an integral part of the UAE and a pillar of the federation. The Emirate's destiny is entwined with the UAE's destiny, its well-being is vital to the UAE, and its people are ever-willing to sacrifice for the greater good of the country. The Union's interest is above local interest, the Union's laws transcend our laws and legislations, the Union's policy is our policy, and the Union's government priorities are our government's priorities.
- 2. No One is Above the Law:** Justice is the basis of a strong and proud nation, and guarantees prosperity and stability. No one is above the law in Dubai, starting with the ruling family. The law does not discriminate between citizens and residents, rich and poor, male and female, Muslims and non-Muslims. Justice delayed is justice denied. "Injustice anywhere is a threat to justice everywhere". I renounce unfair practice or conduct of any person, and the ruling family shall likewise renounce any form of injustice as long as it governs the Emirate
- 3. We are a Business Capital:** The Government of Dubai aims to improve the lives of its people through strengthening its economy. Dubai does not invest or involve itself in politics and does not rely on politics to ensure its competitiveness. We extend a hand of friendship to all those who hold good intentions towards Dubai and the UAE. Dubai is a politically neutral, business-friendly global hub that focuses on creating economic opportunities.
- 4. Three Factors Drive Growth:** Dubai's growth is driven by three factors: a credible, resilient and excellent government; an active, fair and open private sector; and public and government-owned flagship companies that compete globally, and generate an income for the government, jobs for its citizens, and assets for future generations.
- 5. Our Society has a Unique Personality:** Our society is a respectful and coherent one, bound by tolerance and openness. It distances itself from all forms of discrimination and biasness. It is a disciplined society, committed to its promises, timelines and covenants. We are modest about our successes, perseverant in dealing with challenges, charitable and generous in achieving the greater good, and open to everyone.
- 6. We believe in Economic Diversification:** Economic diversification has been the foundation of our unwritten constitution in Dubai since 1833. The changing times and the rapid developments make our commitment to this principle everlasting. Our new goal is to create at least one new economic sector every three years that will be productive, contribute to our GDP, and generate jobs.
- 7. A Land for Talent:** Dubai has always relied on talented tradesmen, administrators, engineers, creatives, and dreamers for its success. The Emirate's prominence, sustainability and competitiveness depend on its capacity to continue attracting skilled and talented people, and nurturing the brightest minds to generate innovative ideas. We have to consistently review and renew our policies and procedures to ensure our appeal to talented individuals. We must build the best environment in Dubai for the world's leading minds.
- 8. We Care About Future Generations:** The destiny of our future generations must not be affected by the fluctuations of regional politics and global economic cycles. We invest and create valuable assets for them. Our fundamental rule in this regard is that the government should, under all circumstances, own economic assets that are worth at least 20 times the value of its annual budget. We work towards maintaining a secure future, and we are focused today on ensuring the prosperity of our future generations.

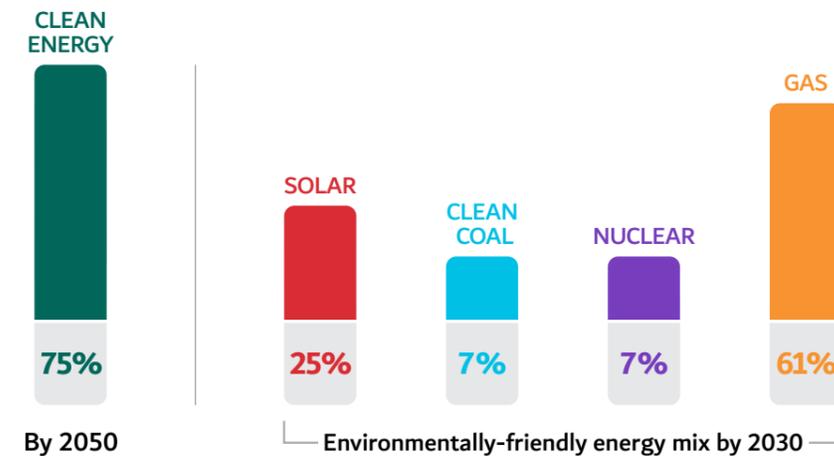

## DUBAI CLEAN ENERGY STRATEGY 2050

HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, launched the Dubai Clean Energy Strategy 2050, to make Dubai a global centre of clean energy and green economy.

The strategy consists of five main pillars:

- 1. Infrastructure**
- 2. Legislation**
- 3. Funding through the Dubai Green Fund**
- 4. Building capacities and skills**
- 5. Environmentally friendly energy mix**
